Shall hearts of fire, that inly burn With pleasure's warmest flame, To joys that know no name !

How coldly Sol's meridian beams Would fall upon us here, Where ev'ry eye with pleasure gleams, Where brightest suns appear!

Unsocial day! thy sunshine boars All joyless, tasteless roll, And naught but care incessant lours, To cloud the earth-bound soul-But joys at night are like those lights

O'er heaven respiendant spread, hose glories sparkle but at nigh When care-worn day hath fled.

Thus earth born souls should joyous flow, And like those heavenly fires, Begin like stars on earth to glow, When wine with night inspires.

According to his gracious word.

ELIAS HICKS.

ELIAS HICKS.

[We have not been backward in expressing our sentiments in regard to the ministry and exalted character of our ancient friend. Elias Hicks, since his recent visit to this city. But we are not sure that we merit a charge that has been made against us, of styling those who were his principal opposers here, "bigots and persecutors;" far be it from us to presume to term them so, for skey are all honourable men; and if we have wronged them, and overstepped the bounds of discretion, by giving publicity to the speculations of others, whose zeal has outran their judgment, we solicit their Christian forgiveness. But, at the same time, we are satisfied in our own minds, that the misrepreare satisfied in our own minds, that the misrepre-sentations which were made concerning him, and the treatment that he received whilst here, savour ed strongly of persecution; and we suspect that three fourths of the Society of which he is an or nament held the same opinion.

That we do not advance the assertion that this

eminent Minister has been misrepresented, without proof, the following letter, signed by three respectable men, will testify. And we take pleasure in adding a copy of a letter from another venerable Priend, who has been approved in the ministry for forty years past, as full testimony, if it were want-ing, of the excellence of this worthy Disciple of Christ, who is best loved where he is best known, and whose established character as a peace-maker and a perfect christian, it is beyond the power of the world to take away. He experiences the trials that all reformers have been subjected to, but he is doubt enjoyes necessarily assessed to

Philadelphia, 12 Mo. 21st, 1822.

We, the undersigned, being occasionally in the city of Philadelphia, a letter was produced and handed us, signed by ten of its citizens, Elders of the Society of Friends, and directed to Elias Hicks; after perusing and deliberately considering the charges therein against him, for holding and propagating doctrines inconsistent with our religious testimonies, and more especially those, said, by Ezra Comfort and Isaiah Bell, to be held forth at a meeting immediately succeeding the late Southern Quarterly meeting, and we being members of the Southern Quarter, and present at said meeting, are free to state for the satisfaction of the first mentioned Friends and all others whom it may concern, that we apprehend the charges exhibited by the two Friends named are without substantial foundation: and in order to give a clear view, we think it best and proper here to transcribe the said charges, so exhibited, and our understanding of them, severally, vis. "That Jesus Christ was the first man that introduced the Gospel Dispensation-the Jews being under the outward and ceremonial Law or be some outward miracles; as healing the outward infirmities of the flesh, and raising the outward deid bodies, in order to intreduce the Gospel Dispensation"—this, in substance, is correct. "That he (Christ) had no more power given him than man: -this sentence is incorrect: " and also that he (Christ) had nothing to do with the healing the soul, for that belongs to God only;" is likewise incorrect: and the next power to raise the Dead," should be transposed thus, to give Elias Hicks's expression. "By the same power it was that Elisha raised the dead." "That man, being obedient to the Spirit of God in him, could arrive at out hands, or the seed in man, it would make man equal with God," is incorrect: the sentence for that Stone in man, should stand thus-" That this Stone or Seed in

nature that was in Christ and God.' This statement and a few necessary remarks we make without comment, save only that we were then of the opinion and still are, that the sentiments and doctrines held forth by our said friend Elias Hicks. are agreeable to the opinions and doctrines held by Geo. Fox and other worthy friends of his time. ROBERT MORE,

"I should not have written thee at this time were it not for the deep sympathy I feel for my beloved friend, dear Elias Hicks, who is now amongst you, and who I expected, before his arrival there, would meet with opposition from some who ought to be his fellow labourers in the Lord, but they should have fully investigated) have passed sentence upon him as favouring Deism, although I fully believe he is as far from those sentiments as all who op pose him are from Atheism. I have known him above forty years, and have cause to believe he has lived as near the Lord and his blessed truth as any belonging to the Society of Friends. My prayers have been put up to the Throne of Grace, day and night, on his behalf, that the Lord might

great joy, and praised the Lord for his goodness towards him; he has my entire unity and sympathy. I now, and for many years have considered him as one highly favoured of the Lord, and humbly hope and trust that the Lord of Heaven will carry him through the arduous work in which he is engaged, to the praise of his holy name, and the peace and consolation of his own soul. May the Lord be his refuge, his song and his salvation, is the sincere desire of my heart.

"It now comes into my mind to enjoin thee to shew him the above, if it may be but as a cup of cold water given to a disciple of Christ. The letter above alluded to, stated a meeting his opposers had with him, and the reprehensible conduct of -, and some others, at that time. Give my dear love to him and his companion. Dear Elias, may the Lord Jehovah be thy strength and thy song, and become thy salvation. Mayest thou be enabled to praise the Lord, and commemorate his gracious dealings amongst the people, and make mention that his name be exalted .-Amen.

FOR THE SATURDAY EVENING POST,

"Funeral eulogiums are, too frequently, trite, common-placed, and unmerited. The tears of the community are too often implored by unbounded vanity or by underserving arrogance."

[Poulson's Obituary.

The practice of publishing eulogiums on the dead has become, of latter years, so mind seems to be but very little excited by these articles. Some readers, indeed, pass them without so much as to give them a perusal, probably from a belief that they are, at best, highly coloured pictures of the character and merits of the deceased, and, according to the old adage, " false as an epitaph." Those whose ingenuous bosoms are ever open to the story of sorrow and whose sympathetic feelings have not been blunted by a commerce with falsehood and deception, regard these memo-Dispensation, it was necessary there should rials of the dead not only as testimonials of friendship for their worth, but as models of character to excite the emulation of the living, and salutary and profitable lessons on the subject of mortality are inculcated by them. Though praise is some-times lavished where there may be little or no merit, the names of these who have devoted their lives to piety and benevosentence, "that Elisha also had the same lence should not be left on that account unnoticed. Individuals of this character, when they depart from this terrestrial scene of duty and labour cause a vacuum in society; their death is a loss to the coming an emulation of the virtues of the dead -to the cursory and transient reader it may afford a useful lesson of morality .man had all the attributes of the Divine " A lecture silent, but of sovereign power," to call the wandering imaginations of the fickle mind home, and, for a moment to think of the frailty and uncertainty of human existence.

FOR THE SATURDAY EVENING POST.

I was lately perusing a little work said to have been written by Amos Wilson, who is stiled the Pennsyl vania Hermit, who lived 19 years alone in a cave 12 miles from Harrisburgh, and died there last Oct. Boston, printed for John Wilkey, 1822." It contains much valuable instruction in "directions to mankind how they may be happy in a miserable world, and ensure a glorious inheritance in that which is to come." But there is some want of authenticity as to the author. In the sketch of his life which is prefixed to the work, it is stated he was born in 1781-that he had a sister two years younger than himself, who, at the age of 19, was publicly executed in the vicinity of Philadelphia, for a crime which in an unreflecting moment she had committed; that he had procured a reprieve from evil reports concerning him (which for her of the Governor, and hastening to the place of execution was hindered by an unpropitious rain which had fallen that day, and swelled the streams of a river which he was obliged to ford on his return, so as to render it impassable for some hours, so that he did not arrive at the place of execution till a few minutes after she was turned off: and that these circumstances so preyed upon his mind as to induce him to retire from society, and spend the remainder of his life in the manner of a hermit It is clear from the narrative, that Amos Wilson's

From this comparison of the two narratives, it appears that the date of Amos Wilson's birth is erroneous; probably it should be 1761. And it he retired to the woods soon after the execution of his sister, and lived there 19 years, he must have died 12 or 15 years ago.

Let Amos Wilson's history be as it may, the little piece, with his name as author, contains much useful matter, calculated to impress the mind with religious considerations, submission to the various dispensations of Divine Providence, and sincere devotion to the sovereign Good-not thro' the " coid and barren offspring of speculation, but the warm and vigorous dictates of the heart."

In page 34, he says, " Mankind in this world are ever subject to ills, infirmities and disappointments -pains and perplexities are the long-lived plagues of buman existence-but religion is the balm that heals those wounds ;-it was this that preserved me, and prevented my committing violence on myself, at the melancholy moment when I was doomed to experience one of the severest trials of this life-when doomed to witness the melancholy fate of an affectionate and only sister, the companion of my youth, torn from the bosom of her fond parents, and for many months confined within the thick walls of a gloomy prison, and from thence conveyed at the very moment that a pardon was obtained for her, to the gallows, there to suffer like one of the greatest monsters of human decommon, that the interest of the public pravity, an ignominious death. To view her lifeless corpse suspended in the sir, surrounded by a throng of unpitying spectators! But, alas, it was the will of God, to which we must submit-it was at this trying moment that he sent religion and reason to my aid, and bid me no longer grieve for her whom I could not and ought not wish to recall to this troublesome world-for her whom I had just reason to believe had gone to the regions of eternal day, above the reach of sorrow, vice or pain."

A SHORT STORY.

A yankee pedlar, on his way to the west with a horse load of notions, put up at the house of an honest Dutchman between Harrisburgh and Wheeling, and as it happened was detained there three or four days by a heavy rain which made the roads and streams impassable. At last the sky brightened up and he hitched;too, but when reck-Jonathan requested the host to score it until he returned from his voyage, promising very honestly to discharge it then. This did not suit the Dutchman, however, who insisted on the cash, which was at last reluctantly paid him. It was then the custom, as it is now, to treat a traveller, upon payment of his bill, to a glass, and the tavern keeper was not backward in following the custom. But on handing out a mug of clear cider, Jonathan remarked shrewdly that it would make fine wine, and said he had a secret by which, through a process, he could convert cider into the best of wine.

This would make fine wine, and said he had a secret by which, through a process, he could convert cider into the best of wine. This put Mynheer on the nettles; possess it he must, so he finally took the vankee up on his offer of putting the cider into the process of wine making for \$10 dowh, and \$50 more when he returned, if it succeeded to the landford's mind. Jonathan was conducted into the cellar, and having pro-That glow in a spirit divine.

> MEMOIR OF MR. CHARLES MATHEWS.

COMEDIAN.

The European Magazine for April, 1818, contains an interesting sketch of the principal features in the early stages of Mr. Mathews's life, embellished with his likeness. We have extracted such parts of this memoir as will be most suitable to the present purpose, which is to give our readers a knowledge of the man whose eccentric genius has been the theme of poets, and the admiration of the British panegyrists, for the last twenty years, and who will shortly appear before the citizens of Philadelphia in his public obaracter.

This valuable Comedian, whose merits have made an impression on the public mind, which we are convinced will prove as lasting as it is powerful, was born on the 28th June, 1776, and is the younger son of Mr. James Mathews, a book-eller of was born on the 28th June, 1776, and is the younger son of Mr. James Mathews, a book-eller of much worth and respectability in the Strand-Charles was intended for the same profession, and at the age of fourteen, three years before he quitted Merchant Tailora' School, was bound apprentice to his father. Nothing could be more prudent than this measure, but articles of indenture have no power over the inclinations. Young Mathews was fonder of reading books than selling them; and those he preferred were, of all others, the books which his father wished him to leave unnoticed. Bell's British Theatre, The Beauties of the Dramatists, and a Collection of Farces, were the volumes be singled out from the numberless. of the Dramatists, and a Collection of Farces, were the volumes he singled out from the numberless sermons and theological tracts with which the shelves of the shop groaned. The Traileaman's Assistant was neglected for the Spouter's Companion; and he longed for an opportunity of reciting in public, some of the fine speeches which he had treasured up in his memory in private. This opportunity soon occurred; he heard, that "hard by there were spirits at work." who, like himself, having souls above either buttons or books, were reing souls above either buttons or books, were re-solved to become the mimic representatives of kings and heroes. In short, a private play was to be exhibited; the scene of action was a small room up one pair of stairs, over a pastry cook's shop in the Strand. Here an elderly French lady gave evening lessons to a few select pupils, who, in re-turn for her French exercises, proposed to treat her and her friends with an English tragedy,— This intelligence no sooner reached our hero, than he felt an unaccountable desire to learn French,— So laudable an inclination could not but be encouraged, and he was accordingly sent to acquire the true Parisian accent at this evening academy.—
The ceremony which took place at his introduction may casily be imagined, instead of Boyer's Dictionary, he received a copy of Philips' Distrest Mother; and our Franch pupil, by way of could desail, prepared to "counterleit the deep tragedian," in the part of Phonia, Mr. Elliston was the Pyrchus, and the whole performance went of with much ectar. "Our hero, upon whom Melpomene had not bestowed her choicest favours, still, acquitted himself with tolerable credit, and, by for acquitted himself with tolerable credit, and, but for the decorateur of the evening, who had adorned his side with a toledo of more than ordinary length, which somewhat embarransed his action, he would husbands, men who are unworthy the sacred title. How often have I seen some men, after spending their day and evening in idleness and vice, with a set of worthless fellows like themselves, come home late, and swell and awagger and acold, at their poor wives, who had perhaps apent a ted-outering beside a comfortless fire, and by dim of persuasion and caresses prevailed on their half, attreed children to go supperless to bed. I prostets, Mr. Printer, it is too bad to exercise so much patience and forburance, and then to be scoled gether in a small room over a pastry-cook's shop, patience and forbearance, and then to be scolded gether in a small room over a pastry-cook's shop, at after all; and I often think what poor weak should find themselves after a separation of fifteen to the Spirit of God in him, could arrive at as great or a greater degree of righteousness than Jesus Christ:" this is also incorrect. "That Jesus Christ thought it not robbery to be equal with God," by annexing the other part of the paragraph mentioned by the holy Apostle, would be correct—"Neither do I think it robbery for man to be equal with God," is incorrect. "Then endeavouring to shew that by attending to that Stone cut out of the Mountain without hands, or the seed in man, it would courage and fortitude to say NO to all their soils the citations; that such may ever be my happy lot, is the present prayer of your obedient servant,

P. S. I dont care whether you put in the resolution, as, like our common mother, Eve, I might stage-struck youth was frequently mounted upon it, endeavouring to give the shopman and maid some relish of the opposite beauties of Otway and some relish of the opposite beauties of Otway and O'Keeffe. Whether it was that "Young Master's" anditors did not melt into tears at the "syllables of dolour" which fell from him as the painted the distresses of Jaffler, and the despair of Romeo, or that his admission of the inimitable Parsons, whom he saw perform shout the ened up and he hitched too, but when reck-oning came to be paid which was \$10, time, estranged him from the buskin, we cannot determine.
From this period, however, he resolved to pay

his court to the Comic Muse. "The old men seemed to occupy his most particular attention; and with a view of public efforts which he now meant seriously to make, he procured a collection of wigs, which, for number and variety, from the proud full bottom down to the humble scratch, was thought to outvie even Suen's celebrated stock that, to the unutterable grief of every virtunso and collector of similar curiosties, said to be burnt with the Birmingham theatre in

## THE SLAVE TRADE.

From the Sierr Leone Gazette, Jugust 31.

The case of the Portuguese schooner San Jos Haliacca, prize to Lt Hagan of the Thistle, and condemned in the Mixed Commission Court, affords a melancholy instance of the unfeeling and atrocious manner in which the Slave Trade is boat did not measure seven and the space over the twenty eight feet long, and the space over the

From the information obtained by Lt. WASHINGTON'S BIRTH-DAY. The day, which next to that on which our fe

athers declared these states free, sovereign and idependent, is the proudest in the calender of American history, has returned, again to brighten and animate the recollection and call forth the tribute of unfeigned respect and veneration for the virtues and patriotism of the immortal WASII-INGTON. Posterity will consecrate the hour winch gave him birth; and each succeeding generation will add fresh justre to the halo which surrounds his name. Parents will teach their children "the deeds of other times"-and while Liberty remains dear to them, or as long as prudence, valour and fortitude are estimable in a soldier; wisdom, and leath, and policy in a statesman; or integrity, disinterestedness, and inflexible honesty in a man, so long will the memory of this great chieftain be embalmed in the hearts of his countrymen. If he had lived in pagun times, he would have been worshipped as a god-but living as he did, when Christianity shed its light in the world, we can only expect to remember him as a mortal, far sing in every encobling attribute all others.

Several persons in this city, says the New-York National Advocate, who for a long period had been laboring under scrofulous complaints; have been entirely cured by taking a few buttles of SWAIM'S PANACEA. One person in particular, those situation was of that nature, as to cause the most serious alarm in the minds of his relatives and friends, has in the period of six or eight weeks been entirely cured, and presents the appearance of a ound, hearty man. We expect that a full account of this case will shortly be pub-

A plot was formed in the Walnut-street prison o effect a general jail delivery on Sunday morning last. The scheme was so deeply laid that it would probably have completely succeeded, had not one of the conspirators given information to the inspectors concerning it, previous to the time sed on for its fulfilment. Two of the convicts were secreted in the work shop where they had ready prepared, ladders and ropes for scaling the walls to make their escape. These men were to have made a given signal, when the whole of the prisoners, who were in church would have seizof the Inspectors and keepers who were with them, a party was to have rushed to the front her and prevented the entrance of the citizens, and the remainder to have fixed the ladders, &c. which they might have fastened together in a few mautes-But in consequence of the previous information obtained, the Inspectors had consulted with the mayor, sheriff, &c. who with prompthess adopted the necessary measures for defeating the project. They obtained from the officer commanding marines at the pasy yard, a quantity of fire arms, which were brought up from thence a close waggon, early in the morning of Sunday, and deposited in the Prune-street department, and there loaded and made ready for immodiate use. The marines were marched from

the navy yard, without arms, and conducted to a building while be (Antony) entered and committed the theft, and that Plato was to give the slarm by whisting if any body approached. Upon rejoining his comrade, the money was put into Plato's hands for division, as he could read, most of the money being in bank bills. Plato remains in Philodelphia. The probability is that the greater part of the money will be recovered. when their services should be required. But the two men in the work shop having been secured, before they could give the appointed signal, the prisoners were quietly marched from the church to their old quarters; which rendered the interference of the marines unnecessary. We under stand, that one plan was proposed for quelling the insurrection, which if it had been put in practice would probably have cost some lives-It was, to have permitted the appointed signal and as fast as the prisoners should have appeared on the wall, to shoot them down, as an example to the rest; but this was abandoned in conse quence of the lives of the keepers and inspectors being placed in jeopardy, as they would have been in the power of the furious and disappointed

The above apparently arose out of a preceding attempt, made on the evening of the 10th instant by these criminals, to quit their old lodgings, to which they appear to have taken a fixed antipathy On that occasion they took the liberty of making a hole in the floor behind the door of the room in which they were confined, and intended to have broken through the arch beneath, from whence they could have made their way into the yard, and over the wall. But the keepers having detected them in the affair, informed the inspectors who were in session at the time. They sent for the keeper of the Prone street department, and the majority of them and the keepers having armed themselves, they proceeded to the door of the spartment (No. 16) in which these prisoners, to the number of twenty seven, were confined. The convicts were then ordered to retire to the lower end of the room, to lie down on the floor, and no a man to rise but those whose names should be called. Five of the principal offenders were then taken out and placed in the cells, and the remain der submitted at discretion.

From these repeated traits of insubordination it is much to be feared that these desperate mer may yet effect their purpose; and makes us look, anxiously look for the completion of the new Pe nitentiary, where they may experience the benefit of solitary confinement -and the erection of a Stepping Mill, which may employ their energies, and prevent them from plotting against the peace of the community.

"An hour ago a Columbian schr. of war hove too off this harbour, and sent her boat on shore. She has had only six days passage from Maracaybo. I conversed with the officer, who informed me that Maracaybo is closely blockaded by 29 vessels of war, under Commodore Belluche, and that General Urdanette with 4,300 men is closely besieging the same place. Forales is completely hemmed in and the town must necessarily fall: by the time this reaches you it no doubt will be in the hands of the Patriots. Patriots.

FOR THE SATURDAY EVENING POST

A due consideration of the following extract from the works of William Penn, seems peculiarly seasonable, and possibly may have a tendency to preserve some from great inconsistency. T.

" Since it seems unreasonable that mer should have the benefit of a natural sun, which shines or the just and the unjust, by which to direct their steps, and securely transact all temporal affairs and yet that their souls should be left destitute of a spiritual luminary, or sun of righteousness. when, in comparison of the salvation of a single soul, Christ counts the world of no value. The soul then bath eyes as well as the body: and as men may see if they please, when the sun is in the outward firmament, unless they wiifully close their eyes, so may all rational souls see, if they will, by the eye of Brason, that spiritual sur which gives a true discerning and direction to the mind, how to think and desire, as the natural sun doth to the body, how to act and walk aright." [Wim. Pean's select works, oct. ed. vol. 1, p. 278.

Turkey .- It is common in Turkey be way of reproach, to blacken the fronts of the houses of those persons who were guilty of talebearing or propagating falsehoods.—
If that were the case with us, what a dismal figure some of our houses would make they would look like Charnel houses-but as this is not common among us, many, many of our houses are beautifully garnished like whited sepulchres.

We have received several Communication respecting an insult which was recently offered to a distinguished female visitor to our "city of brotherly love," by a young Pharisee of the South; but are doubtful of the propriety of publishing them at this time of excitement, unless it she absolutely necessary; in which case, whope, "another stone from the sling of LITTE DAVID" will not be wanting. But the forward young man, who rashly sported on the giddy height will probably receive his merited reward from another source. Our thanks are due to "R." &c. for their strength.

( Any Persons having Files of the Saturday Evening Post, from the commencement of the present year to this time, which they would be willing to dispose of, will much oblige us by leaving their names at the office.

A CURIOSITY.

A MR. GIBBS, Lettery Broker, of this city, has been recently exhibiting in this state a curi-ous piece of mechanism, said to be the work of an ous piece of mechanism, said to be the work of an Italian artist. It consists of a box four inches long three wide, and two deep—of fine gold. On one end is a smill box—on the other, a lid opens and discloses an eight day time piece, which, besides striking the hours and quarters, plays a number of brautiful times. But the most wonderful part is, that on setting a spring, a pieture on the top of the box rises slowly, and discovers a bird ascending from below. The Bird is of an inch in length; of plumage the most rich, and yet the most natural. It stongs with astimishing sweetness, and accompanies its voice with all those motions. most natural. It stogs with astonishing sweetness, and accompanies its voice with all those motions common to a living hirele-da head turns from side to side—its little bill opens, and its th mat swells at every note, and its wings and tail spreads and contract during its song. After repeating and finishing its strain it drops upon its golden nest, descends to its retreat, and the lid gently chases to its place.

DR. JOHNSON—When Dr. Percy first published his collection of ancient English ballads, perhaps he was two lavish in commendation of the beautiful simplicity and poetic merir he supposed himself to discover in them. This circumstance provoked Johnson to observe to him one evening, at Mice Beautiful. provoked Johoson to observe to him one evening at Miss Reynold's tea table, that he could rhym as well, and as elegantly, in common narrative and conversation. For instance, says he,

As with the hat upon

As with my hat upon my head,

Not hear, alas! this mournful truth, Nor hear it with a frown, Thou canst not make the tea so fast As I can gulp it down.

And thus he proceeded through several more stanzas, till the reverend critic cried out for quar

PRESENCE OF MIND.

A sailer, at the battle of Trafaigar, who was actively employed at one of the guns on the quarter deck of the Britannia, had his leg shot off a little below the knee, and observing an officer, who was ordering him to be conveyed to the cock pit, said "That's but a shilling touch, your honor; an inch higher and I should have had eighteen pence for it! alluding to the scale of pensions allowed for wounds, which, of course increase, according to their severity. The same resolute fellow, as they were lifting him on a brother tar's shoulders, said to one of his friends, "I say Bub' take a look for my leg and give me the silver buckel out of my shou! I'll do as much for you enother time!" PRESENCE OF MIND.

Barthe, the French dramatic author, was remarkable for selfishness. Calling upon a friend, whose opinion he wished to have upon a new comedy, he found him in his last moments. But, notwithstanding, proposed to him to hear it read. " Consider," said the dying man, "I have not an hour to live!". " Aye," replied Barthe, " but this will only occupy half that time."
